

Jumpstart Fargo

December 7th 2024 on the campus of

NDSU NORTH DAKOTA
STATE UNIVERSITY

Jumpstart Fargo is an exciting, hands-on event designed to equip FIRST Robotics Students, Mentors and volunteers with the skills and knowledge needed to excel in the upcoming season. This event features a series of 50-minute training sessions covering key aspects of robotics, including but not limited to programming, mechanical design, electronics, strategy, and team management. Whether you're a rookie team or a seasoned veteran, Jumpstart Fargo offers valuable insights and practical experience to help your team succeed.

Participants will have the opportunity to learn from experts, collaborate with other teams, and gain the confidence needed to tackle the challenges of competitive robotics. Join us for a day of learning, networking, and inspiration as we kickstart your journey to success in FIRST Robotics!

If you have any questions, please contact Rory Held at rheld@stemalliancefm.org
